

# St Johns 11kw high quality inverter company

## Overview

---

What is a j11000h solar inverter?

The J11000H is a high - performance hybrid solar inverter with a capacity of 11KVA/11KW, ideal for diverse power needs. It features a nominal input voltage of 230VAC, accommodating a wide range of 170 - 280VAC for personal computers and 90 - 280VAC for home appliances, with auto - sensing 50/60Hz frequency.

What is a GE 11kW inverter?

The GE 11kW inverter, model GEP11.4, is a single phase, grid-tie string inverter from General Electric. It features up to 3 Maximum Power Point Trackers (MPPTs) with a maximum 16A input current per string.

Can a power converter withstand high-voltage insulation?

Depending on system-level requirements, many power converter designs must withstand high-voltage insulation levels, typically in the range of several kilovolts between active circuitry and protective earth.

How many volts can a j11000h charge?

Equipped with a 48VDC battery, the J11000H supports a maximum discharge current of 220A, with floating charge voltage at 54VDC and overcharge protection at 63VDC, using a CC/CV charging method. The MPPT solar charger supports a max.
