

# Sunny solar Panels

## Overview

---

What is Sunny Solar?

Sunny Solar is a solar installation company that took the initiative to measure up on the roof and provided practical advice on system sizing based on individual household needs. (Review by Ken). They are thoughtful guys giving fantastic results and run a first class operation.

Is Sunny Sky Solar a good company?

According to Philly P. from Queensland, who had a system installed two months ago, "Sunny Sky Solar is very professional and efficient". They kept their scheduled installation time and Philly is very happy with the system. Johnny from Sunny Sky Solar also provided very good advice. Anna was also described as very friendly.

How much does Sunny Solar cost?

The prices for Sunny Solar's systems ranged from \$6000 to \$8000. The cost was a consideration, but I also evaluated the quality of the service I had received. Sunny Solar had a good price and had given me a lot of useful information and good service.

Who installs solar panels in San Diego?

With over 15 years of experience installing residential solar panels in San Diego and the North County area, Sunny Solar Power has the experience and know-how homeowners can trust with their solar needs.
