

Tariffs on the export of solar modules to Guyana

Overview

What is the tariff rate in Guyana?

Guyana maintains a Common External Tariff (CET) rate that ranges from 5 percent to 20 percent. A tariff rate of 40 percent applies only to agricultural products. All duties are value added. The customs act allows for the National Assembly to impose import or export duties on any goods.

What are the tariffs imposed by Guyana in 2021?

Tariffs imposed by Guyana in 2021 are below. The maximum rate of tariff in percentage on any product is 100. The simple average tariff across all products is 9.28. The trade weighted average tariff is 4.73. The total duty free imports in thousands of US dollars are 2,278,606.07 and duty free tariff line items share is 28.72.

What is the difference between tariffs and duties in Guyana?

In Guyana, tariffs are specific taxes imposed on goods entering the country, while duties pertain to the taxes on exports. The structure of these tariffs and duties is informed by various factors, including product classifications and trade agreements, ultimately influencing the cost of goods for traders operating within this jurisdiction.

How does Guyana regulate import & export?

The government of Guyana has established specific regulations that govern the import and export of certain products, primarily aimed at safeguarding public health, the environment, and national security. The Regulation of Trade Act serves as the foundational legal reference for categorizing these goods.
