

Which PV site is more popular in Kiev

Overview

Is Ukraine a good place to invest in solar power?

Ukraine has a range of incentives designed to encourage investment in solar power facilities. Since the country is one of the top locations for solar panel installation, this market holds a great deal of potential for any developer looking to enter the industry. Gudzovka has a peak capacity of 24.3 MW, which is enough to power around 23,000 homes.

How much solar power does Ukraine have in 2024?

Figures from the Solar Energy Association of Ukraine (SEAU) earlier this year showed that the country added around 850MW of solar PV capacity in 2024, the majority of which came from self-consumption systems installed by businesses. It's "become a trend", Semenyshyn says.

Is solar energy gaining traction in Ukraine?

Solar energy in Ukraine is gaining traction. With one of the largest solar energy companies in the country aiming to deliver 1 Gigawatt of solar and wind energy by 2030, there is a huge spike in demand. Ukraine has a range of incentives designed to encourage investment in solar power facilities.

Which solar power plant is located in Dnipropetrovsk?

They are both parts of Zhytomyr Solar Park. The Terslav solar power plant project in the Dnipropetrovsk region will have a capacity of 20 MW. It will be one of the largest solar power plants in Ukraine and will help approximately 9,000 households use renewable energy. It's been launched in May 2020.
