

Wholesale of corrosion-resistant mobile energy storage containers for port terminals

Overview

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

What are the components of a power storage box?

One side of the box is equipped with PLC cabinets, battery racks, transformer cabinets, power cabinets, and energy storage power conversion system fixed racks. In addition, the container is equipped with vents. The components they are divided into two rows and arranged on both sides of the container, leaving a passage in the middle.

What is CIMC TLC|RYC energy storage container?

CIMC TLC|RYC Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. It has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.
